PITTSBURGH, July 19 /PRNewswire-FirstCall/ □ WESCO International, Inc. (NYSE: WCC), a leading provider of electrical MRO products, construction materials and advanced integrated supply procurement outsourcing services, announced today its second quarter 2007 financial results.

Consolidated net sales for the second quarter of 2007 were \$1,518 million compared to \$1,336 million in 2006, an increase of 13.6%. Sales from the acquisition completed in the third quarter of 2006 were approximately \$181 million. Core sales, excluding the acquisition results, matched last year's second quarter. Gross margin for the current quarter and the 2006 comparable quarter was 20.3%. Operating income for the current quarter totaled \$99.6 million versus \$94.7 million in last year's second quarter. Depreciation and amortization included in operating income was \$9.2 million for 2007 compared to \$6.3 million in 2006. Net income for this quarter was \$57.1 million versus \$55.2 million in the comparable 2006 quarter. Diluted earnings per share for the quarter were \$1.17 per share versus \$1.05 per share in 2006.

Mr. Stephen A. Van Oss, Senior Vice President and Chief Financial and Administrative Officer stated, □We achieved record sales and earnings per share in the second quarter and generated significant free cash flow. Our strong cash generation and liquidity facilitated the continuation of long-term shareholder value improvements through our acquisition and share repurchase programs. At the end of June, we closed on the acquisition of Cascade Controls Corporation. Cascade has annual sales of \$11 million and is a well established automation and controls distributor in the Northwest region of the U.S. Cascade provides WESCO with additional capabilities to serve our growing customer base of original equipment manufacturers. During the quarter, we repurchased approximately 2.2 million shares of WESCO stock. Shares repurchased since the announcement of the program in February 2007 total 5.2 million shares and represent an expenditure of \$335 million under our \$400 million authorization.□

Mr. Van Oss continued, □End market activity was slower than expected during the quarter resulting in core sales being essentially equal to last year's second quarter. The shortfall in core sales growth resulted primarily from an unanticipated decline in utility expenditures for distribution materials and, as experienced in the first quarter of 2007, lower commercial construction activity. We are investing in multiple programs to increase organic top line revenues and achieve our long-term target of 8% operating profit margin. Our business model is sound and we believe market conditions will be favorable in the second half of 2007.□

Consolidated net sales for the six months ended June 30, 2007 were \$2,969 million versus \$2,602 million in last year's comparable period, a 14.1% increase. Sales during the first six months from last year's acquisition totaled \$341 million. Gross margin in the current six-month period was 20.5% versus 20.1% last year and operating income totaled \$182.1 million versus \$171.7 million last year. Depreciation and amortization included in operating income was \$18.1 million versus \$12.6 million last year. Net income for the 2007 year-to-date period was \$105.2 million versus \$99.6 million last year. Diluted earnings per share were \$2.09 per share in 2007 versus \$1.91 per share in 2006.

Mr. Roy W. Haley, Chairman and Chief Executive Officer, commented, "Despite some shortfall in achieving our growth targets, customer relationships are strong and business development activity is at an all time high. We have experienced significant price pressure in some product categories and markets, but we are not inclined to relax pricing discipline and trade-off profitability for volume. Instead, we are adding emphasis to our marketing and service capabilities and organizational development and training activities. I am confident in our long-term opportunities for above average organic growth."

Note: As previously noted, WESCO amended and restated its accounts receivable securitization facility as of December 29, 2006. Historically, accounts receivable sold under the facility were removed from the consolidated balance sheet and accounted for as an off-balance sheet arrangement. Effective with the amendment, sales of accounts receivable pursuant to the facility no longer qualify for "sale treatment" under GAAP. Therefore, the consolidated balance sheets as of June 30, 2007 and December 31, 2006 reflect \$491.0 million and \$390.5 million of additional accounts receivable and related borrowings.
